The Idea

The community restaurant for everyone: a restaurant community as it lives and breathes with an open kitchen and bar for self-ordering, a cosy lounge for coffee breaks, sofas and co-working space as well as a garden to kick back and relax.

Cooking is done with great attention to detail, without ready-made products but with plenty of organic produce from the region, and always ensuring that wastage is kept to a minimum or avoided altogether. At Ella, plastic is avoided wherever possible, take-away packaging (always ecological) is kept to a bare minimum. Ella is proud of this, remains true to her principles and is always striving to improve.

Take Away

Everything is also available to take away! With our recyclable boxes and cups or reusable containers you can enjoy your Take Away without any waste or guilty conscience.
